## **Prerequisites for sitting the IAC Comprehensive Cytotechnology Examination and attaining the title CT(IAC).**

Three (3) years of full-time experience in cytotechnology is required immediately prior to taking the examination.

The individual must be employed as a cytotechnologist at the time he/she sits for the examination

Two letters of recommendation:

One from the current pathologist employer

One from a previous teacher in cytotechnology, or a leading pathologist in your community, or a member of the International Academy of Cytology

Cytotechnologists working and living in a country with a national registry for cytotechnologists (such as Australia, Canada, Germany, Japan, the Netherlands, New Zealand, South Africa and the United States) must have passed their national examination prior to applying for the IAC Comprehensive Cytotechnology examination.

*Please note: Each country has its own eligibility requirements for those wishing to work as a cytotechnologist. Before moving to another country it is advisable to check the eligibility requirements.*

*For individuals immigrating or seeking permanent residence in the United States of America or Canada, the CT(IAC) examination **does not** circumvent state or federal work regulations or national certification.*

The examination may be given in Chinese, English, Dutch, French, German, Portuguese or Spanish. Anyone wishing to sit the examination in any other language must request this at least 4 months in advance.

Application forms must be received in the Office of the IAC Secretary by the deadline date shown on the examination schedule on the IAC website. ([www.cytology-iac.org/home/examination-schedule](http://www.cytology-iac.org/home/examination-schedule))

### **Continuing Education Credits**

In order to maintain the CT(IAC) status, 180 continuing education credits are required for every four-year period from the year of the examination. Participation in the continuing education program is mandatory. Renewal form and further information is available at the IAC website. ([www.cytology-iac.org/ctrenewalinformation](http://www.cytology-iac.org/ctrenewalinformation))

### **Details about the examination**

Once an application has been approved further information in regard to format and location is provided. A microscope is supplied at the examination site.

The examination encompasses all fields of diagnostic cytology (not only gynecologic cytology) and is given in three parts:

- 1) Microscopic slide examination testing two levels of decision-making ability, multiply-choice format
- 2) Multiple-choice test on visual images
- 3) Multiple-choice test on general knowledge in cytophysiology and cytopathology

### **Examination Fee**

Currently the fee is USD 100 or Euro 80 (fee is subject to change). Payment options are available on the Payment Options sheet of the application form.

If an application is not approved the fee will be returned.

No refund will be made if a candidate is approved but does not appear at the examination site.

The fee to reschedule the exam is USD 20. The Office of the Secretary has to be informed in advance if you are unable to attend.
