

	Monday, 18. July 2022
09:00 – 09:40	Gynecologic Cytomorphology and Histologic Correlates Case Based Discussion
09:40 – 11:00	4 Case presentations
11:20 – 12:00	Basic Concepts in Non-Gynecologic Cytomorphology and Histologic Correlates
12:05 – 12:35	ROSE: Diagnostic Clues and Pitfalls
12:40 – 13:00	Case presentation: Growing ROSE ´s
13:00 – 13:40	Question and Answer Session
14:25 – 15:00	Urine Cytology and Histologic Correlates (including discussion about instrumented samples)
15:05 – 15:40	Serous Fluid Cytology and histology (discussion on mesothelioma)
16:05 – 16:40	Pancreas FNA and Biopsy – Cystic Lesions
16:45 – 17:20	Pancreas FNA and Biopsy – Solid Lesions
17:25 – 18:00	Question and Answer Session
	Tuesday 19. July 2022
08:30 – 09.20	Thyroid FNA - focus on ancillary techniques and patient management
09.20 – 10.10	Salivary Gland Lesions in FNA and Small Biopsies
10:10 – 11:00	Diagnostic Overlaps and Pitfalls in Limited Cellularity Pulmonary Specimens
11:20 – 12:10	Biomarker Testing in Limited Cellularity Pulmonary Specimens
12:10 – 12:30	"Core Biopsies and ROSE: A novice ´s experience"
12:30 – 12:50	HPV testing in head and neck cancer
14:20 – 15:00	Algorithmic Approach and Diagnostic Overlaps/Pitfalls in Limited Specimens: Soft Tissue Lesions
15:00 – 15:40	Lymph Node (FNA, core biopsy, ancillary studies and flowcytometry)
16:00 – 16:45	The Current State of Telepathology
16:45 – 17:05	Case presentation
17:05 – 17:45	Question & Answer Session
